# AmericansFor SafeAccess

Advancing Legal Medical Marijuana Therapeutics and Research

## ASA NEEDS YOUR SUPPORT TODAY

The Drug Enforcement Administration (DEA) is at it again. This time, through intimidation and raids, the DEA successfully closed all medical cannabis dispensaries in San Diego and Modesto. Americans for Safe Access is working to restore access to patients by responding to the myths about dispensing collectives and building the political support to pass regulations protecting access. This includes direct lobbying, protests and TV commercials in the San Diego area.

We are also embarking on an aggressive proactive campaign to change federal policy and advance the rights of patients. Our success will protect patients from dealing with another situation like San Diego. Please read about our strategy. If you support the work we are doing, please join ASA today.

## ASA LAUNCHES STATE AND FEDERAL LEGAL CHALLENGES

On the state level, ASA is defending patients' right to work by taking an employment case to the California Supreme Court. This ground-breaking case will help establish employment rights for patients in California.

On the federal level, ASA is directly confronting the government's denial of the scientific evidence about marijuana's medical efficacy. ASA has filed a challenge under a little-known law that requires federal agencies to rely on sound science when making regulations and spreading information. If we prevail, the government will have to admit that marijuana has medical uses, a critical first step toward doctors being able to prescribe it just like other medications. Make this happen by joining ASA today!

## ASA EXPANDS TO D.C. WITH NEW NATIONAL OFFICE AND MEDICAL AND SCIENTIFIC ADVISORY BOARD

Our new office in Washington, D.C. means that patients now have a voice in our nation's Capitol as never before. As the only advocacy group in D.C. working solely on medical marijuana, we are lobbying Congress to show compassion for patients.

ASA is also reaching out to the medical and scientific communities. Barbara Roberts, Ph.D., is ASA's new D.C.-based Director of National Medical and Scientific Affairs and President of the Medical and Scientific Advisory Board. Dr. Roberts is holding discussions with prominent scientific and medical professionals to integrate medical cannabis into mainstream health discussions.

## VALUABLE PATIENT SERVICES AND ACTIVIST RESOURCES

We're expanding services to the medical cannabis community. We've updated our website, adding more information and more ways to get involved than ever before. Each week, we answer hundreds of legal questions from patients and caregivers through our toll-free hotline. ASA also provides training and information to thousands of advocates, patients, doctors, and attorneys through education programs and specialized trainings.

Americans for Safe Access is fighting in court, lobbying congress, and working in the field to protect the legal rights of medicinal cannabis patients and their doctors. By joining ASA, you help us fight to provide safe and legal access to medical cannabis. Please join us and give generously today!

# Traveling with your Medicine

by Nanda Propaganda

**I**t's time to travel. Can I take my medicine with me? If you are traveling within the state of California by car, you may want to keep your medicine in the trunk along with a copy of your physician's recommendation. Never drive under the influence or keep your medicine where the driver of the vehicle can reach it.

If you are stopped by the police, do not consent to a search of your person or vehicle. Americans for Safe Access suggests you say the Magic Words: "I do not consent to this search." This may not stop them from searching anyway, but if they search you illegally, they probably won't be able to use the evidence against you in court. ASA says you have nothing to lose and lots to gain. Do not physically resist police when they are trying to search. Just keep repeating the Magic Words. If the police decide to detain/arrest you and start questioning you, say the other Magic Words: "I am going to remain silent. I want to see a lawyer."

Americans for Safe Access' California Legal Manual is a must have for all medical marijuana patients in California. You can call them at 888-929-4367 and request a copy for \$1.00 or print it from their website here: [www.safeaccessnow.org/article.php?list=type&type=57](http://www.safeaccessnow.org/article.php?list=type&type=57)

Last year, the California Highway Patrol announced that it will no longer confiscate medical marijuana during routine traffic stops, as long as the patient does not have more than eight ounces and has proper medical documentation. Many counties in California allow patients to possess more than eight ounces. Counties that have not set guidelines for amounts default to the state limits. If you have more than eight ounces and plan to travel through multiple counties, it would be wise to find out how much you are allowed to have in those counties. Many police officers do not know what the guidelines are in their own county.

Before you hit the road, you may want to print out the guidelines for all the counties you will be traveling through and keep them with your medicine in the trunk. You can find county guidelines on the CaNorml website here: [www.canorml.org](http://www.canorml.org) (click on Medical Marijuana). The CaNorml website is an excellent resource for finding local lawyers, should you need one.

If you plan to cross the state line remember that your Physician's Statement (recommendation) is only good in the state of California. To learn more about medical marijuana laws in other states, check out [www.norml.org/index.cfm?Group\\_ID=4516](http://www.norml.org/index.cfm?Group_ID=4516)

If you plan to travel by air, be aware that all bags are subject to search, including checked baggage. Also, as soon as you board a plane (and certain areas of the airport), you are in federal territory where it's illegal to have marijuana. Some have suggested carrying edibles. Don't tell anybody, but I used to be one of those invasive security screeners that searched bags when I was doing a law enforcement internship at SFO. We used huge underground CTX (catscan/x-ray) machines that alarm when a "threat" is detected. When the CTX has detected a "threat", we would carefully search the bag by hand. CTX machines look at density, shape and proximity of contents in the bag being scanned. One of the substances that would alarm every single time is peanut butter. If you travel with cannabis peanut butter in your bag, it WILL be found. It has the same density as some plastic explosives. Another way your bag is sure to be searched is putting electronics, batteries, certain foods and/or dense metal objects that the x-ray cannot see through close together in your bag. Spread them out and your bag will be less likely to alarm the CTX and be searched.

Going overseas? Familiarize yourself with local marijuana laws before you travel. Over 2,500 Americans are arrested abroad annually. More than 30% of these arrests are drug related. Over 70% of drug related arrests involve marijuana or cocaine.

The rights an American enjoys in this country do not travel abroad. Each country is sovereign and its laws apply to everyone who enters regardless of nationality. The U.S. government cannot get Americans released from foreign jails. However, a U.S. consul will insist on prompt access to an arrested American, provide a list of attorney's, and provide information on the host country's legal system, offer to contact the arrested American's family or friends, visit on a regular basis, protest mistreatment, monitor jail conditions, provide dietary supplements, if needed, and keep the State Department informed.

## BOOK REVIEW by Melrose Sanchez

# Demons, Discrimination and Dollars

David Bearman, M.D.

*"There has been some speculation that (George) Washington may have used cannabis medicinally or recreationally, (1) because he separated the male from the female plant; and (2) because he once wrote in his diary he hoped he got home in time for the hemp harvest because he so enjoyed the burning of the slag. (Solomon, the Marijuana Papers) This conjecture most likely is just wishful thinking on the part of the modern-day cannabis advocates, but you never know."*

Doctor Bearman answers the questions we each have rolling around unanswered in our minds as we watch the news. Almost daily we witness the ongoing polarities and entanglements of medical cannabis. We have to ask the big question, *What is the big deal about medical cannabis or any cannabis for that matter?*

Doctor Bearman guides us quickly and safely through the evolution of how this pretty plant became demonized. How did the huge dis-information campaign that leaves society today with a distorted if not perverted view of marijuana get such a head of steam?

Bearman says, *"The AMA (American Medical Association) testified at the Marijuana Tax Act hearings in 1937. They complained that over its two-year preparation period no one ever told them that this legislation was being discussed, much less asked for their input in drafting it. Furthermore, the AMA opposed the Act. They saw no need for it. There were 28 patent medicines containing cannabis on the market in 1937 and no problems with cannabis were known to the AMA."*

The text includes the how's and why's which determined the current medical cannabis legal and social reality. The laws affect each and every patient, advocate, caretaker and all of the future patients. It is said that knowledge is power and in regards to the current legal situation of medical cannabis, nothing could be truer. Bearman's book empowers patients with knowledge about the consistent legal perversion of cannabis.

Bearman's fact-driven text with chapter names like, *Hey, Let's Punish Low Income College Students*, and *Will Sanity Prevail?* makes the text enticing before a word is read. The infor-

mation is solid while the style is easy in tone imbued with the subtle-flare of a natural born storyteller. It is excellent for that bedtime read.

Bearman's casual, yet authentic voice is more like a delightful narrative than a history lesson. He has the knack of leading the reader through a rather adventurous saga that leaves one empowered rather than diminished or tired. He does know his subject with over 40 years experience in the drug abuse treatment and prevention field, Bearman was the co-director of the Height- Ashbury Drug Treatment Program, a member of Governor Reagan's Inter-Agency Task Force on Drug Abuse and the list goes on.

This is the one of those books that creeps into one's thoughts during the day. Little revelations of a deeper understanding, unlike the usual historical rhetoric. It is the book to be kept, reviewed and is thought-provoking time and again.

*"Marijuana's recreational introduction into the port of New Orleans is traced to the Caribbean, particularly Jamaican, sources. This may have occurred as early as the late 1890s. It is suggested that Hindus, brought to Jamaica by the British to organize the cultivation of sugar cane and hemp fields, had taught the Africans the magic of the female hemp plants' flowers. This was no doubt later supplanted by Mexican influence."* 

by **Maria Juanna**  
CONTRIBUTING WRITER

**I**t is very common for patients to get together and share medication with each other in a group. Over the years, I have observed many things that have made me recoil in horror while doing so. Once something is deemed unappetizing, there is no turning back. Preparing and consuming cannabis is very similar to food. There is a certain etiquette and protocol involved, especially when partaking of a finely rolled joint. They are fun to smoke, practical and portable. Not to mention, it takes a good amount of bud to produce. A good "J" demands the respect of everyone involved.

When rolling or twisting a joint, tightness is a key factor. Too tight and it won't draw air properly. If it is not tight enough it will fall apart and you could end up with a mouthful. There really needs to be a "J" licking machine. Not only for obvious sani-

tary reasons, also people often apply way too much saliva. It makes me think of a puppy getting a bath from its mother. Once the joint is rolled and burning, pace is a big factor. If you have ever been next to a guy that is talking while it is his turn then you can relate. It is a "J" not a microphone, and this is not the time for a speech. Puff, puff, pass, a very simple guideline to follow.

There is an evil menace lurking out there, dead set on ruining your joint and wasting your cannabis. Like a disease, "The Run" spreads quickly and can come from nowhere. If a person draws too hard during a toke then it will spread like wildfire. So toke nice and smoothly, not like drinking an extra thick milk shake. Of course, there isn't exactly a fool proof way of preventing The Run. If everybody involved is puff conscious, then your chances of being run-free increase.

A wet, soggy mouthpiece can be a real turn-off. It can be compared to a big sloppy kiss. Depending on who you are standing next to, that can be an issue. This can be caused by a person dangling the "J" in their mouth like a cigarette. Or maybe just a case of wet lips. If this is a problem then perhaps bring a napkin along with you. I have even cut the end off in a desperate attempt to reach dry land. You can also rest your lips on your fingernails, avoiding the mouthpiece all together.

I hope to reach those who do not realize the things that they do, so that they may identify problems in an attempt to correct them. Have you ever been left out of a "Group Session"? If the answer is "yes" then maybe you do one of the aforementioned things. Remember, sharing medication is a two-way street. A person that does not contribute is just asking to be excluded. If any of you have any medicating horror stories, please feel free to email them to me at [greenkind@earthlink.net](mailto:greenkind@earthlink.net). I will feature them in future columns. Till next time, keep your chin up and your spirit high. 🌿

**Did you know . . .** that the active key ingredient of marijuana (THC) may be considerably better at suppressing clumping of malformed proteins that is a hallmark of Alzheimer's than *any currently approved drug* prescribed for the treatment of the disease? This finding was reported by scientists in the October 2, 2006 issue of the journal of *Molecular Pharmaceutics*.

## 8th ANNUAL CANNABIS HARVEST DANCE SEBASTOPOL COMMUNITY CENTER SATURDAY, NOVEMBER 4TH

The 8th Annual Cannabis Harvest Dance will be held at the Sebastopol Community Center on **Saturday, November 4th** from 7pm until midnight. This special evening's events include dancing to the live music of Rootstock and Bear Bones Band. The keynote speaker this year will be activist, author and campaign consultant, Mikki Norris. This unique event also features a speakers' forum, silent auction, great exhibits, and food and drinks. Tickets are \$15 in advance at independent record stores throughout Sonoma County, or \$20 at the door.

Performing at the event will be Northern California reggae-rockers Rootstock. The 5 piece band has a musical style that can best be described as World Fusion or reggae with a rock edge. Also on the bill is Bear Bones Band playing folk, rock, and reggae tunes. Additional performers include Doc Knapp and Jules Wood, Bill Panzer, and dancer Christina Sukkal.

Two education rooms will have cannabis experts and garden consultants available to answer questions. There will be exhibits on making cannabis capsules and butter, and on vaporizing, as well as books for sale and free literature.

Proceeds from the event support Sonoma Alliance for Medical Marijuana (SAMM), a nonprofit organization dedicated to education, advocacy, research, and networking related to the medicinal uses of marijuana, and the implementation of the Compassionate Use Act of 1996. SAMM was founded by after California voters passed into law Proposition 215 in November of 1996. Doc Knapp and Mary Pat Jacobs are SAMM's Spokespersons. Over the years they have met numerous times with the Sheriff's Department, District Attorney, Public Health Department, Sonoma County Medical Association to develop guidelines for cultivating and using medical cannabis. One of the more important services SAMM provides is to advocate for legitimate patients who have been arrested and find themselves in court. SAMM does not distribute medical marijuana.

Tickets are available at: Last Record Store in Santa Rosa, Peoples' Music in Sebastopol, Tall Toad Music in Petaluma, Hemp & Chocolat in Guerneville, Backdoor Disc & Tape in Cotati, and

Levin and Company in Healdsburg, or they may be purchased at the door.

For further information contact Doc Knapp at 707-824-1534 or visit [www.samm.net](http://www.samm.net). 

Members of the Rootstock band

## Upcoming Events

**Wonders of Cannabis** — San Francisco Golden Gate Park, at the Hall of Flowers, **October 28-29**, 11-7pm. Join host Ed Rosenthal at his 2nd Annual cannabis culture celebration with music, vendors, comedy, prizes, symposiums. Call CAN for info (510) 486-8083. Sponsored by and tickets available through [www.CannabisActionNetwork.org](http://www.CannabisActionNetwork.org)

**10-Year Anniversary of Prop 215** — **November 4th**, 7pm to 10pm. Dennis Peron, Tom Ammiano, Terence Hallinan, Dr. Tod Mikuriya, Dale Gieringer, plus. SF Gay Community Center, 4th fl., 1800 Market St at Octavia. Entertainment: David Nash, Matt Martin, Gypsy Music. DJ music and food. FREE (415) 441-3859. 1444 Productions.

**SAMM Cannabis Harvest Dance** — 8th Annual Cannabis Harvest Dance, Sebastopol Community Center, Saturday, **Nov. 4th**, 7pm-midnight. Live music of Rootstock and Bear Bones Band. Keynote speaker: Mikki Norris. Cannabis experts and garden consultants, exhibits, books, food/drink, etc. Proceeds to Sonoma Alliance for Medical Marijuana (SAMM). # Save Eddie Lugan

To whom it may concern,

**M**Y NAME IS EDWARD P. LUGAN; I am a Medical Marijuana Patient under California State Health and Safety Code 11362.5 & Senate Bill 420. The reason for this letter is to demonstrate the injustices that I have encountered as a Medical Patient in Oceanside, California. This is not the first incident either; in November of last year I was cited for possession of Marijuana and had my medication seized by the same Police Department knowing that I was a valid Medical Patient under State law.

On 02/07/06 I was parked in a public park "Lusineo Park" in Oceanside, CA. It was around sunset and I was sitting in the driver's side of my wife's car discussing a Real Estate transaction with my cousin because we had just gotten off of work and were relaxing at the park. He was in the back seat with his car parked right next to us and my wife was in the front seat. We had decided to get out of the car and smoke cigarettes, at that same moment a Police car drove into the parking lot and stopped behind my wife's car. "What are you doing?" The officer's first words followed by, "Is anyone on probation or parole?" without leaving time for us to answer his first question. I responded by telling officer Trabelsi (Badge #1186) that we were just smoking cigarettes and we weren't doing anything wrong just hanging out. He said that it looked suspicious that we had gotten out of the car at the same time that he came into the parking lot. I informed him that I am on informal probation and he then put his vehicle into park got out and proceeded to harass me particularly out of the group of us.

The officer asked to search the vehicle that we were in (My wife's car). I said NO, you can not search the car! He said, "So you're not consenting to a search?" I said "No I am not consenting to a search. He threatened to call in the "Dope Dog" as he referred to it, "If he finds any illegal drugs or weapons then your going to jail" he said. I told him to go head; the only thing he will find is my medication that was put anyway in some bags and in a jar that was in a back pack in the trunk. The officer looked around the car from the outside while we were waiting for the "Dope Dog" and he had his partner search us and sat us on the curb. A few minutes later another Police car came into the lot to check on the cops I guess and then took off. After that another Police car entered the lot and out came the "Dope Dog", the officer with the dog walked around the car a bunch of times trying to get the dog to go crazy and scratch on the car pulling the dog onto the car excessively trying to make him find something. After the Police realized that the dog wasn't going to find anything illegal, Officer Trabelsi demanded the car keys from me saying "Give me your keys! I want to see what's in your trunk."

Me, wanting to be co-operative being that I am on probation and all, handed the officer the keys as he demanded. I never said go ahead and look in the trunk or gave any type of consent to search the vehicle. The officer opened the trunk and asked where my medication was, once again being co-operative I told him that it was in my back pack but I still didn't give any consent to search it. The officer pulled everything out and found my two ounces of Medical Marijuana, smoking pipes and my digital scale and some baggies. After that he placed me in hand cuffs and said, "Everything you said doesn't add up and that I was being taken down to the station for questioning." I didn't resist because I wanted to be co-operative and I was seated into the back of a squad car in hand cuffs. I was stuck in the back of the car in pain due to the hand cuffs being tight and my shoulder at an awkward angle. The Police searched my wife's car and my cousins car right next ours. They only took me away and let

me wife drive away with my cousin. They then took me to Oceanside Police Department and booked me with possession of Marijuana with intent to distribute

HS Code 11359 which does not apply to me under Senate Bill 420 (Wrongful arrest). While they were booking me at the station the partner of officer Trabelsi wanted me to urinate into a bottle that had some powder in it, a drug test I guess but I couldn't do it. After a while they took me into a room and sat me down at a table and put a recorder on and read me my rights finally. They asked if they could ask me some questions and if I would co-operate with them. I said "No, I will not answer any questions and that I wanted a lawyer and for them to contact my Doctor." They turned off the recorder and said that they contacted my Doctor and that he was very irate on the phone and acting very unprofessional. I told them that he had every reason to be irate because the Police were not obeying the law of the State of California and had arrested a Medical Patient that was valid under state law. They gave me a weird look and took me back to the holding cell. They later took me to Vista detention center and booked me there. I called my wife and told her everything that had happened and I told her to bail me out. Thank God that I had just gotten paid for a Real Estate transaction that I was working on, I had not even cashed the money order yet. My Bail was set very excessively at \$25,000 and I posted 10% \$2,500. Just about everything that I had to my name, I only had \$3,000. Thanks to working hard. About 12 hours after being arrested at the park and then posting bail I was finally released from jail.

It just comes to show you how much your voice and votes count on a proposition that passed in the state and how law enforcement ignores that law and proposition. I can't believe that Police would waste their time arresting a Valid Medical Patient that is following all the laws of the state. I think that I should be compensated for my bail amount; given a county Medical Marijuana ID card and that the Police should start following the law themselves. Patients should not have to go through this kind of treatment from law enforcement anywhere! Please, help me stop this so that it doesn't happen to anyone else. Thank you very much for taking your time to read my situation.

## Legal Defense Funding and Emotional Support Needed!

Even a dollar donation will help the defense of our fellow patients. Pass up the designer coffee and give these folks a vote of confidence. Let them know we are here and they are not alone in this struggle for choice.

Marie Matlock, founded and is currently the CEO of the nonprofit, *Public Benefit Siskiyou County Medical Cannabis Co-op/Research and Registration Center* established over seven years ago. She is also the author of *Crafty Cannabis Eatables* featured in *Greenkind Magazine*. A stroke victim since 1999, Marie grows around 20 plants for her husband, her assistant, and herself for their personal use at her site. She does not dispense medical cannabis, but does act as a registering agency for medical marijuana patients within her county.

Shockingly, Marie was shut-down by the DEA and charges have been filed against her. Her plants were seized. Now Marie is faced with legal fees and is in need of defense funding. For more detailed information about Marie's case call 541 482 4810.

### MAIL DONATION TO:

Thomas Lloyd / **Marie Matlock Defense Fund**  
125 North 2<sup>nd</sup> Street, Ashland, Oregon 97520

**Roger Mench** has been operating a much needed delivery service out of Santa Cruz. He also is facing a court trail currently. He feels he was safely operating within the legal guidelines and delivering much needed medication to shut-ins and the most critically ill in Santa Cruz County. Roger also needs our support. Please e-mail Roger: [rmench@sbcglobal.net](mailto:rmench@sbcglobal.net)

## Recipies

by Marie Matlock

**W**ith the Holidays coming upon us, these scrumptious marijuana recipes will delight even Scrooge! When cooking with marijuana only your mind can stifle you. Your favorite recipes can be converted, and then prepared. Just think out-of-the-box!

Remember, NEVER cook with Molded Marijuana, it will KILL YOU. It's all right if you smoke Molded Marijuana (not the best thing for you), but if you have no choice smoke it, BUT DO NOT EAT IT!

### BREAKFAST

#### Waffles:

- |                                 |                      |
|---------------------------------|----------------------|
| 3 eggs                          | 1 cup marijuana milk |
| 2 cups sifted all-purpose flour | 1/2 tsp. Salt        |
| 1 cup melted cannabis butter    | 2 tsp. Baking powder |

In a large bowl beat the eggs and marijuana milk together. Add salt, flour and beat well. Add the cannabis butter and mix it in well. Add baking powder and mix well. Pour onto hot waffle iron and bake according to manufactures' directions. Top with Marijuana syrup.

### MARIJUANA SYRUP:

- 1 cup light Karyo syrup
- 1/4 cup finger crushed, marijuana
- 1/8 to 1-1/2 tbs. Flavoring — (fruit juice concentrate, or extract)
- 1/8 to 1 tbs. Vodka

In a small measuring cup add the marijuana and pour over it the Vodka; stir well. Pour the marijuana into a small pot with the Karyo syrup; bring it to a soft simmer, remove at once. Strain the syrup. Serve liquid syrup, over waffles, pancakes, or ice cream, or add it to other foods.

## RESTAURANT REVIEW

# Kiyokawa Japanese Restaurant

Beverly Hills, California

by Melrose Sanchez

**H**ere is a luxurious treat that redefines the idea of fresh. Snuggled in a tree-covered courtyard near larger, more expansive buildings on South Robertson Boulevard in Beverly Hills, is the most delightfully cozy restaurant serving traditional Japanese fare personally created by owner/chef Satoshi Kiyokawa.

Serving vegetarian, seafood and meat dishes including salads, sashimi, sushi, and a full selection of lunch and dinner specials and combinations, this restaurant blends the tradition and grace of Japan with cutting edge California style.

Calling Satoshi a chef is an understatement. A more accurate title is artist. Having the opportunity to sit at the counter, we witnessed the preparation of our meal. Selecting his knife like an artist selects his brush, Satoshi carefully began choosing the natural and organic ingredients. Watching the preparation of our meal

was a show in itself and the presentation of each dish was like a gift being bestowed rather than food being served.

Each morsel and tidbit from rice to saki provoked eye-closing appreciation as the flavors blended and melted into a truly delectable dining experience. The selections range in price to fit most any budget, and this is the restaurant to make your Beverly Hills/Hollywood visit most memorable. It is also a place to enjoy with family and friends. The elegant, yet simple style lends itself to intimate dinners, social gatherings and casual meetings.

Satoshi loves his restaurant and it shows through the décor, service and carefully prepared food. Fresh, by Satoshi standards, means the food was thriving in one of the several large and beautiful fish tanks five minutes before it is served. That is about as fresh as it comes.

For more information about Kiyokawa's go to [www.kiyokawa-restaurant.com](http://www.kiyokawa-restaurant.com) where the complete menu is posted, a map to get to the restaurant, and with beautiful photos of the interior and exterior of the restaurant. Or call 310-358-1900 and speak directly to Kiyokawa's.

This is a place we will return to enjoy as frequently as possible. *Greenkind* ranks Kiyokawa's Japanese Restaurant with five green leaves — the highest ranking possible.

# Seattle Hemp Fest 2006

by Eddy Lepp

**W**e arrived Friday, just in time to check in and hook up with Jack (Mr. Herer). From there we went to the VIP welcome party; it was held on a beautiful old steam boat. As we met and greeted all of our old friends and made new ones, we are thankful for this great event. It is the largest hemp/marijuana gathering in the world and it would not be possible were it not for all the wonderful volunteers. Seattle lost one of the best this year, as we lost James, one of the greatest men I had the privilege of knowing. He is missed by us all. Thank you James, we love you and will remember you always.

The party was wonderful, good food, drink, music, etc. Later we returned to the hotel to get some sleep before the first official day of the Seattle Hempfest.

Jack and Eddy and Jack's Booth

Photos by Craig Lemire of Hello Jazz Productions

Eddy helps auction a very special piece. All proceeds to Seattle HF.

Up at 5 a.m. we showered and headed out. The event was a mess due to construction projects in the park, but it worked out fine. As Craig and I walked about getting a feel, we met many great people setting up for the day. There were new things like Vape-a-Hookah ([www.vapeahookah.com](http://www.vapeahookah.com)), which was great. There were hundreds of vendors spread out over a half mile stroll. It is a delight to the eye and ear. So much love it's contagious. There are three stages with speakers and nonstop music. That night we were the guests of *Apothecary Travel* who had tickets for the *Seattle Cannabis Cup*. What a party; held in a waterside hotel overlooking the sound. It was a party to be remembered.

The samples were excellent. I really liked the Plum Haze, which won third. I believe Pez and Levy won first and second. But it was all so good it is hard to say which is best. Congratulations to all who entered, you are all winners. Much thanks to Bret and his lovely wife for taking us.

Sunday dawned another beautiful and sunny day in Seattle. It was filled with more music, knowledge and love than the day before. Our dear friend, Steve Kubby, announced he was running for President of the good old USA. We wish him luck. We must support all of the brave souls willing to run for office to help us get rid of those who refuse to listen to us. We hope to see you all

Eddy with Oregon NORML.

next year in Seattle. Please attend, we need you. Cannabis will save the world.

Respect All, Hurt None, Love One Another  
Eddy.

Jim and Eddy backstage. Jim is one of the founders of Seattle HF.

**Nov. 7th 2006**

**Lynnette Shaw**  
 For Lieutenant Governor of California

## **Lynnette Shaw** for Lieutenant Governor of California

For years, the sick and terminally ill have been arrested, jailed and imprisoned for taking the medication of their choice. Even doctors, who have written recommendations for alternative medical herbs, have suffered the same fate. As Lieutenant Governor, I will stop this travesty. As a caregiver for over 13 years, I will work to stop this practice to incarcerate the ill and the dying.

Medical cannabis was approved by the voters in 1996 and I promise to stop the federal government from overstepping their powers to interfere in medical choice. I will seek complete access to medicinal herbs which has relieved the suffering of thousands.

*“...government should be a referee and not a player in society.”*

Further, if elected I will promise the use of industrial hemp to help farmers and communities survive communities survive in tough economic times. I will seek communities surviving in tough economic times, I will seek environmental reforms to authorize new energy sources, especially those derived from the oil of hemp seeds. But most of all, I want to ensure that citizens and their rights are not abused by heartless bureaucrats, unjust laws and heavy-handed state legislators.

It has always been my opinion that government should be a referee and not a player in society. We need leadership that will foster the right of citizens and their freedom to be left alone. But I cannot do this alone. I will need your vote if you want me to make sweeping changes in Sacramento.”

—Rev. Lynnette Shaw

Greenway Compassionate Relief.

Photos provided by Greenway Compassionate Relief

**F**or every patient who has ever left a dispensary with that “if only” feeling, there is hope because there is *Greenway*. Seemingly, Lisa Molyneux has left no stone unturned in creating a nurturing, caring environment that is extremely safe and well-organized, with one of the most extensive selections of medicine in the State of California. *Greenway* is friendly, welcoming, helpful and embracing. In other words, Lisa has created a model dispensary balancing legal requirements and patient needs with true compassion.

A cancer survivor herself, Lisa was a patient long before she became a dispensary owner. She had learned first hand what patients are looking for and desire from a dispensary. She has only visited maybe two or three different dispensaries, so what she created came from her personal experience rather than what other dispensaries are or are not doing. There is purity present at *Greenway* born of Lisa’s viewpoint and perspective.

Located in a modern and sleek industrial park in Santa Cruz, next to prominent and well-known businesses, *Greenway* sits proudly, yet discreetly, with ample patient parking, a gracious reception area, and finally a dispensary second to none. Glass counters house one of the most expansive selections of medication in the state. This vast variety ranges from “Old School” 1970s style medication to the highest quality, more familiar strains. The counters are stuffed with options. Tea, lemonade, tinctures, and brownies created as a sleeping aid. There are extracts, ointments, candies, and glass-jar containers filled with both indoor and outdoor strains too many to name.

Compassion is the operating word at *Greenway*. *Patient need is the first priority*. Lisa Molyneux fueled her fortitude with faith to overcome every possible obstruction to obtain full city and state licenses to operate her dispensary with full legal sanction. It took over a year and a half to fulfill every requirement, but Lisa didn’t give up and the result is *Greenway*.

They are offering one of the most extensive selection of medicine we have seen anywhere. It wouldn’t matter if they only offered one. More than medicine is happening at *Greenway*. It is a coming together of diverse people to work together to create something larger and more than themselves. With Lisa at the helm, one by one her team has come together and it shows. Clean, organized, simple and thoughtful, *Greenway* has a recycling program for its glass jar dispensing containers, a magnificent discount program for cancer patients, the elders, veterans, and low-income patients. Lisa has employed patients and offers dignity to those in need. She doesn’t want anything back. “Pass a favor on to someone else,” is the motto. There are not accolades enough to applaud Lisa’s effort. Lisa used her gentle determination to become legally sanctioned and supported by city and law enforcement officials as well as by her local community. It is a peek into the future, how it will be when medical marijuana is normalized. The support of the city and law enforcement lends a relaxed quality to the dispensary. The legal status combined with the offering of true compassionate relief has earned Lisa universal respect. Her attitude toward others and her love of life shows in every aspect of *Greenway*. It seems apparent that as Lisa’s accomplishments are

Lisa Molyneux at Greenway.

discovered, her influence will be felt in the medical marijuana community for a long time to come.

Greenway patients obviously love their dispensary, and there is a visible reciprocal relationship going on between the dispensary operator, staff and patients. Everyone seems happy, the staff embracing the patients. Patients are interested in their dispensary and coming with newsy talk, jars to recycle, reports of how the last medication worked for them. The counter staff is busy helping patients; Lisa is behind the counter too, laughing and talking to staff and patients, taking a phone call. It is the day of their first anniversary celebration and the parking lot now has speakers for the live music, the smell of cooking hot dogs and hamburgers is in the air.

There is a sense of belonging, a desire to linger a few moments longer just to soak-up the energy of the place. Should you find yourself close to the Santa Cruz area, take the time to visit Greenway. Santa Cruz is about an hour or so drive from the Bay Area, and worth the time and the gas to visit this truly great dispensary. All around, Greenway and the beautiful Santa Cruz area offer a real treat to sojourners, neighbors, and local patients alike.

For more information call 831-420-1640. 

High-d and Randolph Greenway reception staff.

## 420Jars.com

Photo: 420jars.com

**420 Jars** are the finest medicine storage jars we have seen to date. These jars are made in America with a high-quality, durable glass. The lids have a plastic gasket seal to protect your medicine's potency. This tight seal creates an air-vacuum that you'll hear "pop" every time you open the jar. *420 Jars* come in two styles. The *Classic* series is cylindrical much like a traditional apothecary jar while the *Vibe* series flares gracefully to a broader base. Both styles are extremely attractive and each style comes in three different sizes that hold as little as 1/5 ounce and as much as 1.5 ounces of your medicine.

Steven Hager, the founder of the Cannabis Cup, recently selected *420 Jars* as the Official Stash Jar of the 2006 High Times Cannabis Cup in Amsterdam. That means all entries at the Cup will be displayed in *420 Jars*. Also, a limited edition of commemorative jars will be created for event.

With a selection of 22 designs, the jars fit every personality and lifestyle. These are the perfect storage jars for both dispensaries and patients to protect medication potency. In fact, some dispensaries are now having custom jars made with their name & logo to give away or sell to their patients, including both Sunset Collective and PCH Collective. So throw out those baggies, put those plastic pill containers in the archives, it is *420 Jars* that keep medicine fresh, potent, and ready to use. Reasonably priced from around \$15 - \$25, the jars more than pay for themselves by keeping medicine fresh and at a consistent potency level. Go to [www.420JARS.com](http://www.420JARS.com) or call 1-888-420-5277 for more details. This really is a "must have" storage container for every patient.

## QuickGrow™ Flower and Herb dryer

**Quick Grow Systems** — Flower and Herb Dryer is a necessity for patients growing personal medication. Proper drying is as critical to the health and potency of medicine as is every other step in the cultivation process. This model of the *Flower and Herb* dryer was developed by *QuickGrow Systems* especially for California patients.

Simply plug this dryer into any wall outlet, it uses less than 1amp. of power and creates the perfect environment for drying medicine and maintaining potency and flavor. It has an effective odor killing Coco-Carbon filter so there are no tell-tail wafting scents of drying your medicine. It cuts drying time down to just a few days. The dryer's durable plastic container comes with an easy on-off lid for quick cleaning and storage.

The unit has quiet 3" ball-bearing fan with a safety metal finger guard, with 3 levels of drying, two large removable mesh shelves will hold an ample amount flowers and herbs. There is also a thick removable pre-filter which is easy to clean. This great unit IS the answer for this season.

The **Flower and Herb Dryer**, will simplify and improve your entire drying process.

For more information please call 1-877-788-4769; [www.QuickGrowCanada.com](http://www.QuickGrowCanada.com)

## CANNA-BANANA BREAD

**Canna Banana Bread** is a product more than worthy of searching out and trying. It is nothing less than wonderful. The home-baked quality combined with a tasty, yet subtle, banana flavor makes this medicating experience a cut above. Unlike many infused foods, *Canna-Banana Bread* is not overly sweet, so the flavor simply augments the appealing bread-like texture containing no nuts. One taste tells that the finest ingredients and highest quality medication is used to create this excellent ingestible.

The dosage is so consistent that a 1/2 inch slice produced the same level of medication that could easily be controlled according to need. The loaf with proper refrigeration has a long shelf-life and serves 8-12 depending on serving size. Also, it is important to note that the bread is reasonably priced. Generally, because of calorie and fat content, I shy away from pastries, cookies and breads as a means of medicating. As a note to those who have experienced weight gain from indulging in baked goods and candies, *Canna-Banana Bread* fit into my usual diet by replacing two slices of sandwich bread. If you don't see *Canna Banana Bread* at your local dispensary ask them to obtain a sample or call 310-541-0608 for ordering information.

## MEDI-SCOPE

*The Medi-Scope is a product no patient should be without. This handy, inexpensive instrument is a magnifying glass designed especially for medication inspection. All medication needs to be clean and free of mold, fungus, insects (dead or alive) and have no musty-smell. Patients need to inspect before they ingest. Certain mold can be deadly if eaten. Properly dried medication poses no threat,*

*These days more dispensaries are providing magnification inspection for patients. But patients need to protect themselves by inspecting every medication purchase. As with all things — it is buyer beware. Protect your medication dollars by being sure your medicine is all you expect it to be. Check out [www.420.Med.com](http://www.420.Med.com) or call 800-756-3305*

Keep it

Medical

7LBH.org

**Keep it Medical** offered by [www.7LBH.org](http://www.7LBH.org) is a great little personal pack for medical cannabis. This hand-sized zip-pack is made of a canvas-type, water-resistant material and comes in green and black. The pack zips fully-open and stores four plastic, snap-open medical containers secured in place with wide elastic bands. There are also two bands to hold other items such as a small pipe and a lighter.

The exterior of the pack has a zipper pocket to hold medical prescription papers, and identification cards. There is also a handy snap-hook to keep the pack secure on the belt, in a backpack, purse or briefcase. It provides a low profile, secure and organized method to store four different strains for both home and travel. Priced at \$25 – this handy little pack offers a simple, organized solution to keeping medicine close at hand. This organization's motto is helping you "Keep it Medical". Check out [www.7LBH.org](http://www.7LBH.org) and support this non-profit's cause to empower patients.

Free pouch to new, verifiable patients just for mentioning this article, while supplies last at Caregivers Medical Resource, 3232 Barham Blvd., Los Angeles.

## We Won!

In a victory for justice and compassion, **Sensible Colorado** is happy to announce that the Denver City Attorney's Office has dropped all charges in the I-100 "Test Case" of Denver resident, Damien LaGoy.

Sensible Colorado's legal team aggressively defended Mr. LaGoy through several court hearings to achieve this outcome. Given LaGoy's ailing health, Sensible Colorado paid all legal expenses for Mr. LaGoy and in the process of reaching this landmark outcome *incurred substantial legal debt*. Please donate today to allow us to keep representing patients such as Damien.

Mr. LaGoy was the second "Test Case" of Denver's I-100 law which amended city law to remove criminal penalties for adults possessing small amounts of marijuana. To watch a powerful exposé by CBS 4 on Damien's case see [http://cbs4denver.com/topstories/local\\_story\\_263081652.html](http://cbs4denver.com/topstories/local_story_263081652.html)

If you are aware of other patients who have suffered from law enforcement harassment, please contact us at (720) 890-4247 or [info@sensiblecolorado.org](mailto:info@sensiblecolorado.org)

On Saturday, September 16<sup>th</sup> 2006 at 4pm PST over 200,000 people, in 250 locations in 50 countries were simultaneously praying for Peace & Unity. *Earthdance* is more than a music festival; it's a world-wide event uniting club-kids in New York City, with Shamans from Mongolia, Brazilian teenagers, and Gandhi's grandson, all coming together for the purpose of World Peace and Education. This year's festival also highlighted a panel of elders that shared their cherished knowledge with eager festival attendees.

Starting out in 1997, and growing every year since, earthdance brings together a melting-pot of jam bands, all-night cinema, electronica, dome dancing, tent city, folk music, hip-hop, international headliners. Also, Mr. Bubbles all night black light show room, the Healing Village, bathing suit optional river swimming, eco-friendly and communal living, plenty of food, water and enough entertainment to provide memories until next year's festival.

For more information check out [www.earthdance.org](http://www.earthdance.org)

Everything you need to know about reggae can be summed up with Bob Marley.

# Reggae

## on the River '06

by Marcella Sanchez

The ladies love Sean Paul.

Since its humble beginnings 23-years-ago, *Reggae on the River* has become a global phenomenon. Reggae and World musicians from all over the globe dream of performing at Northern California's legendary Reggae festival, the first of its kind and the largest in the country. The 3-day festival is like summer camp with headlining musicians, DJ's, swimming in the river, camping out, and no counselors to take away your medication.

For More Information about Reggae on the River 2007 check out:
